

A close-up photograph of a person's lower legs and feet. They are wearing blue denim jeans with the cuffs rolled up, revealing a white sock. They are also wearing brown suede chukka boots with matching brown laces. The person is standing on a rough, rocky surface. The background is a blurred, natural outdoor setting with more rocks and earth.

*Dr.*Comfort®

AT DR. COMFORT® WE UNDERSTAND THE
IMPORTANCE OF FOOT CARE AND ARE COMMITTED
TO HELPING PEOPLE GET BACK ON THEIR FEET.

With over 100 years of combined experience in foot care, footwear knowledge and pedorthic training, our team of educators know a thing or two about proper foot health.

Our shoes are available online and through healthcare providers who specialise in foot health. Proper footwear can help prevent more serious complications for those at risk.

You must properly maintain and care for your shoes. Cease using immediately and call your doctor if you have any signs of blisters, pain, swelling or other indications which could cause damage to your feet.
